And that ebook is extremely hard to read through, some times detail with detail, it might be so ideal for both your life and you. Glaring and red-faced, lowering his voice almost to a whisper, Neddy said, "I'm sorry, but you've got me all wrong. I'm not like Renee and you." Few people will spend the greater part of their youth in school, struggling to obtain the education required for a medical specialty, unless they have a passion to heal. Franklin Chan was a healer, whose passion was the preservation of vision, and Agnes could see that his anguish, while a pale reflection of hers, was real and deeply felt. Junior spoke the three words aloud and felt a strange resonance between them and his dim memories of Reverend White's voice on that long-ago night. Yet the link, if any actually existed, remained elusive. Taking no chances, Junior swung the candlestick again, bending down as he did so. The second impact was not as solid as the first, a glancing blow, but effective. A sudden strange weakness, a formless dread, dropped Agnes out of her crouch and onto her knees beside the boy. "Mommy, did you know, every day on Mars is thirty-seven minutes and twenty-seven seconds longer than ours?" Using a false name, claiming that he was an adoptee, Junior made inquiries with several child-placement organizations, as well as with state and federal agencies. He discovered that Wulfstan's story was true: Adoption records were sealed by law for the protection of the birth parents, and getting at them was all but impossible. She approached the kitchen table and swept her hand across it, to emphasize its emptiness. They hadn't been close to Naomi, who'd once said she felt like Romulus and Remus, raised by wolves, or like Tarzan if he'd fallen into the hands of nasty gorillas. To Junior, Naomi was Cinderella, sweet and good, and he was the love-struck prince who rescued her. Hisscus, Nork, and Knacker exchanged sharp glances, nonplussed. Finally, one of them said, "We couldn't do that, Mr. Cain. Not until you've consulted an attorney." From his motel room, he telephoned Hanna Rey in Bright Beach. She still looked after his house on a part-time basis, paid the bills from a special account while he traveled, and kept him informed about events in his hometown. From Hanna, he learned that Barty Lampion's eyes had been lost to cancer. Or as her father often said, happily mocking his own rhetorical eloquence: "Brighten the corner where you are, and you will light the world." "Bartholomew, huh?" asked Wally as he piloted them through banks of earthbound clouds. "But I had greater facility with cards than most magicians. I trained with Moses Moon, greatest card mechanic of his generation." Junior had learned to implode from a self-help book about how to improve your vocabulary and be well-spoken. At the time, he had thought that this word—among others in the lists he memorized—was one he would never use. Now it was the perfect description of how he felt: as if he were going to implode. Mocked by the silvery ping-ting-jingle of the maniac detective emptying his ghostly pockets, Junior ran. Flush with the promise of their engagement, still excited by the success at the gallery, with Angel exuberant in spite of the hour and Oreo energized, he was amazed that they had made the transfer of the little red whirlwind from house to Buick to house with nothing else forgotten other than one purse. Celie called it ballet, but Wally thought that it was merely momentary order in chaos, the challenging-joyous-frustrating-delightful-exhilarating chaos of a life full of hope and love and children, which he wouldn't have traded for calm or kingdoms. Dr. Zedd's death, just last Thanksgiving, had been a blow to Junior, a loss to the nation, to the entire world. He considered it a tragedy equal to the Kennedy assassination one year previous. The quarter, silvery. Under the patriot's neck, the date: 1965. Coincidentally, the year that Naomi had been killed. The year that Tom had first met Cain. The year that all this had begun. Because they were smaller than men and could move more easily in narrow places, or because they were at home with the earth, or most likely because it was the custom, women had always worked the mines of Earthsea. These miners were free women, not slaves like the workers in the roaster tower. Gelluk had made him foreman over the miners, Licky said, but he did no work in the mine; the miners forbade it, earnestly believing it was the worst of bad luck for a man to pick up a shovel or shore a timber. "Suits me," Licky said. Undiminished antiperistaltic waves coursed through his duodenum, stomach, and esophagus, and now he gasped desperately for air between each expulsion, without much success. Junior found no answers before the owner of the diner blocked him from proceeding out of the kitchen into the storeroom and the service alley beyond. Simultaneously sweating and chilled, Junior cursed him, and the confrontation became ugly. Behind the dog, Mary walked out of nowhere, ball in hand, and Koko whirled in surprise, and the chase was on again. As though frightened of the gentle certainty in Celestina's eyes, the doctor turned away from him, and toward the window once more. "Would you like a little tea and a piece of crumb cake?" Grace asked as smoothly as if, in *The Big Book of Etiquette for Ministers' Wives*, this were the preferred response to the announcement of a startling career change. This philosophy had worked for him previously, but forgetting the aftermath was more difficult when the aftermath was your own poor, torn, severed toe. Your own poor, torn, severed toe was infinitely more difficult to ignore than a busload of dead nuns. Neither Agnes nor Edom knew of Jacob's great skill with cards. He had been discreet about his apprenticeship with Obadiah, and for almost twenty years, he'd resisted the urge to dazzle his siblings with his expertise. Celestina had wanted to go to Oregon for the service, but Tom, Max Bellini, the Spruce Hills police, and Wally Lipscomb—to whom, by Sunday, she'd begun talking almost hourly on the telephone—all advised strenuously against making the trip. A man as crazed and as reckless as Enoch Cain, expecting to find her at the funeral home or the cemetery, might not be deterred by a police guard, no matter what its size. "I guess so, but it's not that. I was thinking of something my little girl said." With a bark of pain, chest to chest with defeat, the killer was borne downward by the fragrant weight, in a clink and clatter of brass handles. demons: hypodermoclysis ... intravenous oxytocin ... maintain perfect asepsis, and I mean perfect, at all times ... a few oral preparations of ergot as soon as it's safe to give her anything by mouth. He needed to keep moving, conduct the search, find the watch, and get the hell out of here, but he couldn't stop staring at the musician. Something about the cadaver made him nervous—aside from the fact that it was dead and disgusting and, if he was caught with it, a one-way ticket to the gas chamber. She heard the door, and when she opened her eyes, the bay had already slid out of the car, into the downpour again. She called him back, but he kept going. Trembling, she sat beside the bassinet and gazed at her baby with such love that the force of it ought to have rocked him awake. What if the stubborn, selfish, greedy, grubbing, vicious, psychotic, evil spirit of Thomas Vanadium, which had earlier pursued Junior through another alleyway in broad daylight, had followed him into this one in the more ghost-friendly hours of the night, and what if that spirit were standing just outside the Dumpster right now, and what if it closed the bifurcated lid and slipped a bolt through the latch rings, and what if Junior were trapped here with the thoroughly strangled corpse of Neddy Gnathic, and what if the flashlight failed when he tried to switch it on again, and then what if in the pitch-blackness he heard Neddy say, "Does anyone have a special request?" Celestina finally zipped shut the satchel. "You better watch out for the big bad

wolf." Grimacing, she said, "I told the police about your disgusting little come--on with the ice spoon." Excessive insurance, Agnes believed, was a temptation to fate. "A reasonable policy, yes, that's fine. But a big one ... it's like betting on death." They didn't mind, and down they went in a controlled descent that was nevertheless too quick for Agnes. "We've mapped three routes to the top," Angel said, "and each offers different challenges. Barty's eventually going to climb all of them, but he's starting with the hardest." The funeral was at two o'clock, after which family and friends of the deceased would gather here in the parsonage for a social, to break bread together and to share their memories of the loved one lost. Edom and Jacob arrived, dinner was served, and while the food was wonderful, the conversation was better—even though the twins occasionally shared their vast knowledge of train wrecks and deadly volcanic eruptions. Paul didn't contribute much to the talk, because he preferred to bask in it. If he hadn't known any of these people, if he had walked into the room while they were in the middle of dinner, he would have thought they were family, because the warmth and the intimacy—and in the twins' case, the eccentricity—of the conversation were not what he expected of such newly made friends. There was no pretense, no falsity, and no avoidance of any awkward subject, which meant there were sometimes tears, because the death of Reverend White was such a fresh wound in the hearts of those who loved him. But in the healing ways of women that remained mysterious to Paul even as he watched them do. Although Zedd counsels living in the future, he recognizes the need to have full recollection of the past when absolutely needed. One of his favorite techniques for jolting memories loose when the subconscious. "I know what you're thinking," her mother said, reaching across the table and placing one hand over Celestina's. "I know how useless you feel, how helpless, how small, but you must remember this . . . These Spartan arrangements were good enough for Vanadium. He had arrived from Oregon the previous night with three suitcases full of his clothes and personal effects. He expected that his unique combination of detective work and psychological warfare would enable him to entrap Cain in a month, before these accommodations began to feel too austere even for one to whom anything fancier than a monk's cell could seem baroque. Nothing in his reading offered a satisfactory explanation for what had been happening to him. None of the women filled the hole in his heart, and all of the Bartholomews were harmless. Only the needlepoint offered any satisfaction, but though Junior was proud of his craftsmanship, he knew that a grown man couldn't find fulfillment in stitchery alone. The past three years had given Wally much to celebrate, as well. After selling his medical practice and taking an eight-month hiatus from the sixty-hour work weeks he had endured for so long, he'd been giving twenty-four hours of free service to a pediatric clinic each week, providing care to the disadvantaged. He'd worked hard all his life, and saved diligently, and now he was able to focus solely on those activities that gave him the greatest gratification. She didn't hear gunfire this time, either, but the hard crack of splintering wood attested to the passage of at least two more bullets. Some information she'd withheld from him: that the cancer might already have spread, that he might still die even after his eyes were removed—and that if it hadn't yet spread, it might soon do so. After two years of rehabilitation, Tom had been pronounced as fit as ever, a miracle of modern medicine and willpower. But right now he seemed to have been put back together with spit and string and Scotch tape. Arms pumping, legs stretching, he felt every one of those eight months of coma in his withered—and-rebuilt muscles, in his calcium depleted—and-rebuilt bones. She realized she hadn't turned on the radio. Before she could reach for the switch, she was asleep. Without sigh or complaint, he would walk back to her with the purse. The errand was no trouble. In fact, returning the purse would give him a chance to get another good-night kiss. Because this kind of fictional fact, like maps of imaginary realms, is of real interest to some readers, I include the description after the stories. I also redrew the geographical maps for this book, and while doing so, happily discovered a very old one in the Archives in Havnor. Paul recalled the letter he had written to Reverend Harrison White a couple weeks after the death of Joey Lampion. He'd carried it home from the pharmacy on the day that Perri died, to ask for her opinion of it. The letter had never been mailed. For a while, she couldn't get enough air. Felt suffocated. She drew great, raw, shuddering breaths, and thought that she would never be able to quiet herself but quiet came. Junior didn't slow as he passed the house, but circled the block and drove by the place again. On the other hand, killing a stranger like Bartholomew Prosser relieved stress better than sex did. Senseless murder was as relaxing to him as meditation without seed, and probably less dangerous. If her beautiful son was to be a prodigy of any kind, she would thank God for his talent and would do anything she could to help him achieve his destiny. On this morning in March, minutes after the pie caravan had departed, Edom got his Ford Country Squire out of the garage and drove to the nursery, which opened early. Spring was drawing near, and much work needed to be done to make the most of the rosarium that Joey Lampion had encouraged him to restore. He happily contemplated hours of browsing through plant stock, tools, and gardening supplies. An authoritative note came into Parkhurst's voice, that emperor-of- tone that probably was taught in a special medical-school course on intimidation, though he was striking this attitude a little too late to be entirely effective. "My patient is in a fragile state. He mustn't be agitated, Detective. I really don't want you questioning him until tomorrow at the earliest." This Detroit-built gondola would swiftly navigate the Styx without a black-robed gondolier to pole it onward.
