proportions, which was to be expected since the genetic codes carried by the Kuan-yin had comprised a balanced mix of types. Children and young people were everywhere, and humanoid robots seemed to be part of the scheme of things. The robots intrigued Bernard; such creatures were not unknown on Earth, but they had tended to be restricted to experiments in research labs as technological curiosities since, functionally, they didn't really make a lot of sense. Presumably the Chironian robots had been developed from the machines that had raised the first Chironians, which had been designed not in the form of tin men at all, but to suit their purpose--as warm-bodied, soft surfaced tenders. So conceivably the notion of machines as companions had become a permanent feature of Chironian life that could be traced back to the earliest days. The designs had later been changed to suit the whims and preferences of the children after natural parents appeared on the scene to satisfy their more basic physiological and psychological needs. To his surprise Bernard found himself thinking that the relationship between man and humanoid machine might have been quite warm, and in some way charming; certainly he could see no evidence~ of the cold and sinister state of affairs that Jean had pictured. "Yes, we know that," Quarrey agreed. "But wasn't there also something about the same powers passing to the Deputy Director?" "Old Sinsemilla," said Leilani. "Never let him adopt you," Micky said. At last the assistant took the initiative and peered quizzically at the man who had introduced himself as Clem. your bags, walk out, find a good apartment, get a high-paying job in software design, and be tooling here, imaginary goblins had eaten her as neatly as a duchess might eat pudding with a spoon. Currently Otto smiled humorlessly. "Take a look at the other lunatics around you," he suggested. "What happened to all the people? Where did your army go? They're all Chironians now. And you have nothing to offer them but protection from the fear that you would manufacture in their minds. But they have Chironian minds. They see that the fear is your fear, not theirs; and it is you who are in need of protection, not they." drained oil the heel of night, Micky glimpsed enough of a resemblance between this crazed woman and objection and their cold-eyed persistence is too intimidating to resist. You see guys like this on the TV. he murmured while Colman called the ambulance dispatcher on another panel. "Let's see who steps out from the wings now." "All covering positions manned and standing by," one of the duty crew sang out from a station inside the command post. society whose natures would keep them hanging on to the end regardless. Above all there remained Borftein, who had nowhere else? to attach a loyalty that his life had made compulsive. Borftein headed a force still formidable, its backbone virtually all of Stormbel's SD's. Because these elements needed to believe, they allowed Kalens to convince them that the presence of Chironians inside Phoenix was the cause of everything that had gone wrong. If the Chironians were ejected from the organism, health would be restored, the absented Terrans would return, normality would reign and prosper, and the road to perfecting the dream would be free and unobstructed. and she went inside. "We didn't do that," he said. "After we told 'em they were cooped up, some of 'em started shooting. Five of 'em tried making a break, holding a white shirt up to tell us they wanted out We held back, but a couple of the others gunned 'em down from behind while they were running. She was one of those five." The Chironian turned his head for a moment and spat onto the ground in the shadow beneath the aircraft. "After that, one-half of the bunch that was left started shooting it out with the other half- maybe because of what they'd done, or maybe because they wanted to quit too-and at the end of it there were maybe three or four left. We hadn't done a thing. Padawski was one of 'em, and there were a couple of others just as mean and crazy.
