They put their arms round each other in a fierce, long embrace. Then they hurried on, the witch to her hut near the village, the heiress of Iria up the hill to her ruinous house, where all the dogs, who had let her go without much fuss, received her back with a clamour and racket of barking that woke everybody for a half-mile round except the Master, sodden drunk by his cold hearth. "Irian of Way, my lords," said the Doorkeeper. They were all silent. He motioned her to come. years, in the minds of most people, all magic was black. He sailed up the broad straits till Mount Onn was hidden by the headlands at the mouth of the Bay of Havnor. He would not see it again unless he went through that narrow passage. Then he would see the mountain, all the sweep and cresting of it, over the calm waters where he used to try to raise up the magewind when he was twelve; and sailing on he would see the towers rise up from the water, dim at first, mere dots and lines, then lifting up their bright banners, the white city at the center of the world. He had always remembered that. He remembered it now, when he looked across the hearth, winter evenings, at the dark face bent above a lore-book or a shirt that needed mending. The eyes cast down, the mouth closed, the spirit listening. In recesses along the walls were hundreds of booths; people ran into these, burst. Anieb kept a better pace than seemed possible in a woman so famished and destroyed, walking almost naked in the chill of the rain. All her will was aimed on walking forward; she had nothing else in her mind, not him, not anything. But she was there bodily with him, and he felt her presence as keenly and strangely as when she had come to his summoning. The rain ran down her naked head and body. He made her stop to put on his shirt. He was ashamed of it, for it was filthy, he having worn it all these weeks. She let him pull it over her head and then walked right on. BUT OF COURSE he went down to Havnor South Port, in one of his father's carts driven by one of his father's carters, along with Master Hemlock. As a rule, people do what wizards advise them to do. And it is no small honor to be invited by a wizard to be his student or apprentice. Hemlock, who had won his staff on Roke, was used to having boys come to him begging to be tested and, if they had the gift for it, taught. He was a little curious about this boy whose cheerful good manners hid some reluctance or self-doubt. It was the father's idea, not the boy's, that he was gifted. That was unusual, though perhaps not so unusual among the wealthy as among common folk. At any rate he came with a very good prenticing fee paid beforehand in gold and ivory. If he had the makings of a wizard Hemlock would train him, and if he had, as Hemlock suspected, a mere childish flair, then he'd be sent home with what remained of his fee. Hemlock was an honest, upright, humorless, scholarly wizard with little interest in feelings or ideas. His gift was for names. "The art begins and ends in naming," he said, which indeed is true, although there may be a good deal between the beginning and the end. "What's more wrong than to summon oneself back from death?" said the Namer. shoulders hunched, joined the stream of pedestrians. The corridor widened, became a hall. Fiery.
