Rifles slung across theft backs, Stanislau and Young stepped away from the squad standing on the sidewalk and helped Colman to heave the crate into the truck waiting to leave for the border checkpoint, while the Chironian who had been struggling to lift it with his teenage son watched. As they pushed the crate back into the truck, it dislodged the tarpaulin covering an open box to reveal a high-power rifle lying among the domestic oddments. Promoted rapidly through the ranks of an elite entrusted with the might of the new nation, Borstein glimpsed a vision of commanding a force truly capable of bringing to heel the entire world. But the vision had been short-lived. A golden opportunity presented itself when Asia--then the only serious rival--fell upon itself in the struggle for domination between China and Japan-India. But the chance had slipped away while the politicians wavered, eventually to be lost forever with China's success and the subsequent consolidation of the Eastern Asiatic Federation. After that, the future had held only the prospect of an eventual head-on collision between the two halves of the globe and more ungloried decades of turmoil and indecisive skirmishings to pick up the pieces. Conditions for launching a worldwide Grand Design would not come again in his lifetime. And so he had left to seek a more rewarding destiny with the Mayflower II. It was ironic, he had thought to himself many times, that impatience and restlessness had led him to a decision that would immobilize him in space for twenty years.. "Perhaps there is something else we can do," he said. Everybody looked at him curiously and waited. He raised his hands briefly. "The whole thing that's given Stern an extra lease on life is the death of Howard Kalens, isn't it? Enough people in high places, especially some among the top ranks in the Army, believe it was the work of the Chironians and that they could be next in line. So they're clustering around Stern for mutual preservation. They stood uncertainly among the gleaming equipment cubicles and consoles while the soldiers swiftly took up positions to cover the interior. "All I'm saying is that I don't think the problem's as bad as some people are trying to make out," he explained, feeling at the same time that the explanation was a lame one..A few yards away from them, Corporal Swiley paid no heed as he stood by Fuller and Batesman, who were comparing notes on the best bars so far in Franklin; and watched an aircraft descending slowly toward the large island out in the estuary. He couldn't see any reason why travel shouldn't come free on Chiron, just like everything else, and wondered what kinds of connections could be made from Port Norday to the more remote reaches of the planet. The man swung the bat viciously but clumsily. Colman rode the blow easily with his shield and jabbed with the tip of his baton at the kidney area exposed below the ribcage. His assailant staggered back with a scream of pain. Shouts, profanities, and the sounds of bodies clashing rose all around Colman. Something hard bounced off his helmet. Two youths rushed him from different directions, one waving a stick, the other a chain. Colman jumped to the side to bring the two in line for a split second's cover, feinted with his baton, then sent the first cannoning into the second with a shove from his shield with the full weight of his shoulder behind it, and both rioters went down into a heap. Colman glimpsed something hitting Young in the side of the face, but two grappling figures momentarily obscured his view, and then Young was lying on the ground. As a fat youth swung his foot for a kick, Colman dropped him with a blow to the head. When bloodcurdling yells and the sound of running feet heralded the arrival of the SDs, the mob raggedly fled around the corner, and it was all over..Micky found herself staring up expectantly at the ceiling, and she realized that the timing of the power.haloed by red lamplight, glittery-eyed with excitement. "Thingy, him a hard-ass stubborn little crawly." "Too bad. How come?" "I have no idea," Colman said, grinning. Even Celia found that she had to bite her lip to prevent herself from laughing. "So what happened? Did you send them back up?"
